Imagine that you are a museum curator in charge of putting together a display on the shaping of America. You need to choose one event that you think was the most significant in changing the country. Write a one-paragraph memo to your board of directors explaining why the museum should create a display about this event. Your paragraph should explain why this one event is the best choice for the museum.

Use the Writing Generator to help you pick an event and write a paragraph about it.

Directors of the board, I am writing you regarding the display on the shaping of America. I believe the Boston Tea Party was the most significant in changing the country because it played a significant role in igniting the flame that became America today. It symbolizes the spirit of America as a whole. ^{also} This symbolism will attract visitors from around the world, making this both a tasteful piece and a strategic move for the museum.
